

Segment Overview

	Metals & Minerals	Infrastructure	Rail	Industrial
Financials (9 mos 2010 & 2011)				
Products and Services	<ul style="list-style-type: none"> Metals: proprietary technologies and services for minimizing the environmental impacts of waste streams from metals production Minerals: mineral products for a range of commercial applications, including industrial abrasives, roofing granules, and agricultural and turf soil conditioners Customers include steel mills and asphalt roofing manufacturers 	<ul style="list-style-type: none"> Provides the sale or rental of scaffolding, shoring and concrete forming systems as well as project engineering and equipment installation Customers are industrial and petrochemical plants; the infrastructure construction, repair and maintenance markets; commercial and industrial construction contractors; and public utilities and energy plants 	<ul style="list-style-type: none"> Provides a comprehensive range of equipment, parts and contract services for railway track maintenance and new track construction, including rail grinding, track surfacing, and track stabilization Customers include private and government-owned railroads and urban mass transit systems worldwide 	<ul style="list-style-type: none"> Air-cooled heat exchangers for natural gas compression and pipeline distribution Steel grating for industrial and commercial flooring and safety walkways Energy efficient heat transfer systems for heating and hot water service in large commercial and institutional buildings
Market Profile	<ul style="list-style-type: none"> The world's largest provider of on-site, outsourced services to the global metals industries. Environmentally-responsible, mineral-based products for a range of commercial and industrial uses. Environmental solutions for global resources recovery. 	<ul style="list-style-type: none"> A global leader in highly engineered rental scaffolding, shoring, concrete forming and other access-related services. A solutions provider to major infrastructure, industrial plant maintenance, and construction projects. 	<ul style="list-style-type: none"> A global leader in railway track maintenance equipment, services and solutions 	<ul style="list-style-type: none"> A market leader in energy-efficient air-cooled heat exchangers, heat transfer equipment, and industrial grating products Significant growth potential through globalization of the business
Revenue by Market (9 mos 2011)
